

Please do not eliminate FM translators from the air or give priority to LPFM stations so that K-LOVE would be forced off the air. K-LOVE serves me and my community as a source of news and inspiration and would be sorely missed as a positive, encouraging influence in Kern County if it were to be displaced. K-LOVE's music, news, commentary and discussion of civic events, both secular and sacred, benefit the public in general because they provide an optimistic, constructive viewpoint that is not present in the content of most radio stations' formats and broadcasts. Thank you in advance. David Alesso.
